

Vaccines are
safe for kids
with kidney
disease!

IS YOUR CHILD WAITING FOR A TRANSPLANT?

Choose to
vaccinate
to keep
your child
healthy!

VACCINES ARE
RECOMMENDED BY
ALL TRANSPLANT
PROGRAMS.

VACCINES CAN
PREVENT
INFECTIONS THAT
CAN INCREASE TIME
TO TRANSPLANT.

VACCINES CAN HELP
KEEP YOUR CHILD
HEALTHY BEFORE
AND AFTER THEY
RECEIVE A
TRANSPLANT.

Don't delay -
talk to your child's
doctor today!

Ask what vaccines are
recommended for your
child.
